Fixture Type:

Catalog Number:

Project:

Location:

### PRODUCT DESCRIPTION

Enclosure to house small size electronic transformer. Has separate compartments for transformer and line voltage wiring. Allows the line voltage connection to be located in a separate compartment. Holds one EN-1260-R-AR, EN-1275-R-AR or EN-1260-R2 electronic transformer.

### FEATURES

- Use for all initial installations to ensure safe and primary side connections in a wiring compartment
- The slim design allows the box to be placed through the same cut-out hole as a recessed fixture.

### SPECIFICATIONS

**Construction:** Steel enclosure, painted black (BK). One green grounding wire in primary connection compartment. The box has standard size knock outs for BX or non-metallic sheathed cable connectors.

**Knockouts:** 4 total - 2 on dual compartment side (one for each compartment), 1 on each end (2) of box.

**Details:** The slim design allows the box to be placed through the same cut-out hole as a recessed fixture.

### ACCESSORIES

#### Multiple Terminal Block

Accommodates up to 6 output connections for 14 AWG wires. Terminal block is used to easily wire together multiple output connections for a neat under cabinet installation without the use of open splices. Perfect for wiring up to 3 button lights at 20W or 6 button lights at 10W.
